AUSTRIA'S REPLY MAY CAUSE EARLY BREAK OF RELATIONS

IF THE SENATE AMENDS RULES EXTRA SESSION BE CALLED THIS MONTH

WILSON DETERMINED TO ARM MERCHANTMEN

WASHINGTON, Mar. 6.—It is authoritatively stated that President Wilson will do everything possible to find a way to arm American merchantmen despite the failure of the senate to pass the armed neutrality bill giving him this power specifically.

Final decision as to whether the president can legally do this is expected shortly.

In deciding his legal status the president and his advisors are considering the intent of the old statute passed in 1819, which was cited in the senate as prohibiting the arming of merchantmen for action against vessels of nations at peace with the United States.

An extra session of congress before July to pass the appropriation bills, if nothing else, seems certain.

If the senate amends its rules to assure prompt action on the armed neutrality bill, an extra session of congress may be expected during the next two or three weeks. Many messages have been received from all parts of the country bitterly criticizing the action of the senators who prevented action on the armed neutrality bill.

Senators Vandaman, of Mississippi, and Kenyon, of Iowa, two of the 12 senators who did not sign the manifesto favoring armed neutrality, explained in the senate that they had not been in a conspiracy to prevent a vote on the measure. Senator Lodge has again introduced the armed neutrality bill into the senate.

A FINE PROHIBITION ADDRESS AT CASINO

A very large audience of nearly 1,200 people attended the lecture of Ex-Governor J. Frank Hanly, of Indiana, at Casino Burgoyne Monday night on the subject of "Nation-wide Prohibition."

Governor Hanly, who is leader of the Flying Squadron foundation, spoke very interestingly and forcefully on the prohibition question, making what is probably the best speech that has ever been given in Daytona along the same lines. His talk was very patriotic and inspiring, as well. He told how 24 states of the Union are now dry and that he believed that Florida would be the 25th. "The whole country has its eyes on this state to see whether it will be the next to take the wise move of prohibition."

All present were greatly pleased with Governor Hanly's address and were fully convinced of its worthwhileness and of the great influence that the flying squadron has brought to bear on the United States.

MARTIN OF VIRGINIA CAUCUS NOMINEE AS SENATE LEADER

WASHINGTON, March 6.—Senator Thomas Staples Martin, of Virginia, has been selected by the Democratic caucus as their Senate leader.

Senator Martin resides at Charlottesville, Va., and is serving his fourth term, having first been elected in 1895. He is an ex-Confederate veteran. At the close of the war he attended the University of Virginia and was admitted to the bar in 1869. He has lived in the same place since 1853 and is a native of Virginia, having been born at Scottsville, Va., July 29, 1847.

FEDERAL GRAND JURY RETURNS WHOLESALE FOOD INDICTMENTS

NEW YORK, March 6.—The Federal grand jury today indicted 108 corporations and 55 individuals in the food investigation. True bills were also returned against 19 corporations and 16 individuals in the coal investigation.

J. Duga arrived from Bellaire, O., Saturday night, as expected, and joined Mrs. Duga and their daughter at the Bellaire cottage, their winter home, on Magnolia avenue. Mr. Duga will be here for the remainder of the season and will accompany Mrs. Duga to their northern home.

BIG SPECTACULAR DISPLAY MARKED INAUGURAL CLOSE

WASHINGTON, March 6.—The glow of thousands of electric lights, bathing in brilliant illumination Washington's wide avenues and public buildings, the beams of many searchlights playing on the dome of the Capitol, Peace Monument and the Court of Honor, and the artillery of a mammoth pyrotechnical display at the Washington Monument grounds last night brought the inaugural festivities to a close.

Pennsylvania avenue was a broad, bright line of yellow light, a mile-long colonnade set with illuminated courts at five points between the Capitol and the White House. At each of these "Courts of State" the avenue was bridged with festoons of glowing bulbs sweeping in graceful lines from tall pillars of white and intertwined with evergreens. All public buildings were ablaze with lights and many of the

ARRANGEMENTS ARE PRACTICALLY MADE FOR ELKS' JOY DAY

At the last meeting of Daytona lodge of Elks, arrangements were practically completed for the celebration of "Joy Day," on March 16th, when there will be a big parade, with many interesting features. There were seven more applications for membership, making a total of 17 seeking admission to the order and a number of these candidates will be on exhibition in the parade, which will include attractive floats, brass bands and many special features, as the Elks' endeavor to make each "Joy Day" surpass the one of the previous year.

At the last meeting the officers nominated at the previous meeting were elected. The presence of the Harvard quintet was a pleasant feature of the social hour, M. L. Stanley being responsible for the music. At the next meeting the several hotel orchestras of this city and the peninsula hotels, including the Crystal and Casino Burgoynes orchestras, will be entertained by the lodge in appreciation of their services at the Elks' charity ball.

COMMERCIAL CLUB RECOMMENDS TRAFFIC OFFICERS

At the regular meeting of the Commercial club Monday evening the secretary was directed to present to the city commissioners a recommendation that three traffic officers be appointed to direct the traffic at the three principal intersections with Beach street, Orange, Magnolia and Volusia avenues. No other business of importance was transacted, but a committee on nomination, consisting of Fred J. Niver, Geo. H. Gardiner and A. J. Malby, was appointed to make the nominations for officers of the club to be elected at an adjourned meeting which will be held next Monday evening.

IMPORTANT RULINGS BY SUPREME COURT ANNOUNCED TODAY

WASHINGTON, March 6.—Four important decisions were handed down today by the Supreme Court of the United States.

The first, compulsory workmen's compensation law to come before the Supreme Court was held constitutional in the decision on a Washington state law. New York's compulsory and Iowa's voluntarily laws were also upheld.

British claimants of the prize ship Appam won their suit in the Supreme Court for possession of the vessel. The Supreme Court also sustained the tariff law's provision for five per

DEFENDS PRINCIPLES OF SUBMARINE WAR

WASHINGTON, March 6.—Austria's note declaring that government's adherence to the general principles of unrestricted warfare holds out little hope that a break may be avoided.

The Austria reply to the United States' inquiry as to the Austro-Hungarian attitude regarding unrestricted submarine warfare has been handed to Ambassador Penfield, according to a Vienna dispatch via Amsterdam.

It states that neutrals are responsible for losses and suffering by entering the zones of war operations.

Referring to the note in the Ancona case, Austria says that it "strictly adheres to assurances already given," but calls attention to that portion of the Ancona note which says that Austria reserves the right to bring up for future discussion developments in the submarine warfare.

In discussing the destruction of ships without warning the Austrian note says that there are other nations to be considered in addition to the times when a vessel flees or offers resistance. The note says: "Merchantmen which carry military garrison or arms may be destroyed without hesitation," and asserts that the existence of armed merchantmen is not justified by international law and that when Austria made her promise to Washington they did not extend to armed merchantmen.

The note concludes with the statement that armed merchantmen are "to be regarded as pirate vessels which may be destroyed."

cent discount on import duties on merchandise carried by American vessels. Werner Horn, the German accused of dynamiting the Vanceboro, Maine, bridge, must return for trial to Boston.

NEW YORK PEOPLE TO ENJOY PICNIC

New York people will enjoy a basket picnic at the lighthouse tomorrow, the trip to and from the inlet to be made on one of the boats of the Nutting line which will leave the foot of Volusia avenue at 9:00 a. m. The return will be made in the late afternoon. These gatherings of the people of the various states represented in Daytona and vicinity during the winter season form very pleasant outings and present an opportunity for the meeting of friends and the forming of new friendships. All residents of the Empire state who can arrange to do so should attend the picnic party tomorrow.

E. M. TIERNEY WELL KNOWN HOTEL MEN GUEST AT CLARENDON

A notable guest at the Clarendon is Edward M. Tierney, of Binghamton, N. Y., one of the most well known hotel men in the east, who, with Mrs. Tierney comes to Seabreeze for a fortnight's stay. Mr. Tierney is president of the Kennedy-Tierney company, owners of the Arlington hotel, one of the leading hotels of New Jersey, and is vice-president of the National Hotel company, owners of the Rochester hotel, Rochester, N. Y., the Hotel Kimball, Springfield, Mass., and the Lafayette hotel, Buffalo, N. Y. The well known financier has twice been president of the Hotel Men's Mutual Benefit association, having held that office during 1914 when the members of the association made a tour of the principal cities of Europe. Mr. Tierney is an able speaker, his platform ability making him much in demand wherever there is an address to be made in his native state. With Louis Seelbach, president of the Seelbach Hotel company, Louisville, Ky., who is a guest at the Despland, Daytona and Seabreeze have the honor of entertaining this season two former presidents of the H. M. M. B. A. The Tierneys come to join Mr. and Mrs. George Barlow, who are guests at the Clarendon.

Mr. and Mrs. Levi Wilcox, of Wallenberg, Conn., have joined the latter's parents, Mr. and Mrs. E. E. Bennett, of Albany, who are spending the season at the hotel.

Miss M. H. Hayden, the charming daughter of Leverett Hayden, of New York City, has arrived to join her grandfather, Charles Hayden, at the Hotel Clarendon. L. Hayden, who is now in New York, is expected the latter part of this week.

Mrs. J. W. Nesbitt and Mrs. W. B. Marshall, of Toronto, Canada, arrived Saturday coming to spend the month of March at the Clarendon. Mrs. Nesbitt and Mrs. Marshall, with the late Col. William Marshall, member of the Fourth Highlanders of Canada, who was killed at Ypres, France,

after repeatedly distinguishing himself for bravery, spent last year at the hotel. They have many friends among the winter colony who are delighted that they have returned.

Already preparations are in progress for the St. Patrick's ball to be given at the Clarendon March 17th, which will be easily the gayest event of the month at the hotel. Although the affair is a fortnight away many reservations have been made for dinner.

Mrs. Herman Bates, Jr., Miss Martindale and Hervey Bates, IV., of Indianapolis, Ind., are again guests of the Clarendon, having motored over Saturday from the west coast. They expect to leave Wednesday for the Isle of Pines, N. C. Miss Martindale is an enthusiastic golfer and goes to play on the famous links at that resort.

After spending six weeks at the Clarendon, where they were popular members of resort life, Mr. and Mrs. C. F. Eddy, and Mr. and Mrs. A. H. Noah left yesterday for Akron, Ohio.

Mr. and Mrs. T. M. Page, of Philadelphia, Pa., and Mr. and Mrs. J. B. Pearce, of Cleveland, O., are a congenial four who expect to spend the month of March at the Clarendon.

After visits of some length on the west coast and at Palm Beach, Mr. and Mrs. Amos Hill, of Philadelphia, and Dr. and Mrs. George Parry, of Jenkintown, Pa., are guests at the Clarendon for the remainder of the season. The four are traveling by automobile.

H. S. Wilkinson, a leading financier of Syracuse, N. Y., with Mrs. Wilkinson, is a guest at the Clarendon for a stay, having come to join Senator Francis Hendricks.

Mr. and Mrs. Dietrick Lamade, of Williamsport, Pa., season guests at the Clarendon gave a farewell supper in the Lotus grill Saturday night for Mr. and Mrs. P. M. Budd, of New York City, who left yesterday for the north. Enchantress carnations were used for the effective centerpiece. Seated at the table were: Mr. and Mrs. Budd, Mr. J. J. Carter, Mr. and Mrs. Henry Dingley, Mr. and Mrs. Geo. Barlow, Mr. and Mrs. E. T. Tierney, Mr. and Mrs. W. T. Bassett, Mrs. Fleming, Mr. and Mrs. Lamade. Other supper parties after the dance were

given by Fred Ward, who entertained Miss Helen Whitbeck, Mrs. Adolf Knecken, Charles A. Root, and W. A. Nelson. Dr. and Mrs. E. L. Potter had fourteen guests, and Mr. and Mrs. Mortimer B. Fuller entertained eight.

Poppies crowned Permelia Pryor's golden curls and blossomed on her dainty white frock when she danced the "Poppy Dance" Saturday night. By special request Betty Burnham and Permelia danced the Pavlova Gavotte, and for her solo number Betty gave the "Song of the Robin," which she danced two weeks ago and repeated by request. Two little girls, who are pupils of Miss Delta Boice, dance with a spontaneity of movement and unstudied grace that is the spirit of the music.

Coming from Palm Beach to spend the month of March at the Clarendon are Mrs. Mary Miller and Miss Carrie H. Miller, of Philadelphia, Pa., who have been guests at the hotel for several seasons.

George A. Zabriskie, well known financier of New York City, with Marion H. Zabriskie, is a guest at the Clarendon, for an indefinite stay.

Mrs. W. W. Scranton and Mrs. E. B. Russell, of Scranton, Pa., have joined Mr. and Mrs. Mortimer B. Fuller at the Clarendon for the remainder of the season. Mrs. Scranton is a granddaughter of Joseph Scranton, a pioneer settler of the city, which was named in his honor.

Completing visits to the more southern resorts Mr. and Mrs. A. C. Pieper and Mr. and Mrs. C. Tisch are a Brooklyn four at the Clarendon for a several weeks' visit en route north.

Late additions to the automobile colony at the Clarendon are Capt. and Mrs. J. H. Lyman, of New York City; Mrs. S. N. Trigg, of Chattanooga and Mrs. E. L. Huffman, of Cincinnati, O.

Cartagena.

Cartagena is a picturesque old sea port on the northern coast of South America, interesting nowadays for what it used to be rather than what it is. Fronting on a perfect harbor, with pleasant green hills sloping up behind its gray walls and red-roofed houses, it would be more popular with people of the North if it were somewhat healthier and a great deal cooler. The sun beats down through a moist heat, and the unaccustomed are prone to sicken in Cartagena with great suddenness. There is no town in either of the Americas that is a more perfect example of what Spain could build in the days of her greatest power. The mistress of the Indies made this port her greatest western stronghold. The massive walls still stand with their old towers well preserved; the ancient castles are no longer capable of menacing a hostile fleet, but they loom up with a bold and warlike front. Here you may see the green old building that was for centuries the headquarters of the institution in the New World.

Birds in Migration.

Few birds put themselves to high speed during the migration flight. They go such moderate distances as 20 to 40 miles a day, taking daily rest, and only when they are forced to increase the actual speed sustained. But some species make long southern migrations. Some make a trip across the Gulf of Mexico varying in distance according to the route from 500 to 1,000 miles in a single trip. The migration of birds is a most interesting study.

But we find that the migration of some birds is very mysterious. Some in the south, some in the north. The bird, which is a migratory species, is the one in the United States and Canada and the bird that is in the south.

Didn't Want the Trimmings

As E. J. Bowes, the theatrical manager, tells the tale, a shapely, garbed West sider walked into one of the handsomest and most ornate of New York's Fifth avenue cafes and called for a drink of straight rye. Having drunk, he counted out three nickels upon the bar and prepared to depart. "Hold on, please," said the gentlemanly attendant; "the price is 25c." "What talk have you?" demanded the patron. "Why, I can get the same brand of liquor anywhere on Tenth avenue for 15c." "Probably so," explained the barkeeper, "but you see we do not charge for the whisky alone. We have to charge for all these decorations—for the hangings at the windows, and the furnishings, and the pictures on the walls. That picture yonder cost \$10,000. That's why we have to ask you a quarter for a drink, see?" "I see," said the West sider, staring about him, and out he went. The next day he returned. He entered slowly, holding one hand across his eyes. He felt his way to the bar and again laid down 15 cents. "I ain't lookin'," he stated truthfully. "Gum me some rye!"—Saturday Evening Post.

Valuable Submerged Forest.

A submerged oak forest covering several square miles, from which logs more than 100 feet in length have been taken, was discovered by Russian engineers while dredging a river.

Here's for An Old-Fashioned AUCTION!

No Band, No Prizes, No By-Bidders, No Free Boat Ride or Auto Ride, no silver tongue or story telling imported Auctioneer or business manager; but a Plain Auction; advertised, conducted and guaranteed to be on the square by the owner himself who will do his own auctioneering and back his own statements.

Everything put up at these sales and receiving two or more bids will positively be sold, the buyers name and address given. It will be a REAL AUCTION such as Grandpa used to have before Auto's and Auction Companies Became the Fashion.

THIS IS THE PROPERTY TO BE SOLD

1 p. m. Thursday, March 8th
1 New Bungalows, Built by Burdick, in MARSHALL PARK

These are neat, new and up-to-date, on nice large lots, just the right distance from the beach, the car line and the library; with plenty of sunshine, water, electricity and gas and among the best neighbors on earth. Walk in and look them over before the day of sale.

1 p. m. Friday and Saturday, March 9 and 10 on Maley Boulevard, South Peninsular Drive, just two miles south of Daytona Beach on new road leading to Wilbur and the Lighthouse.

2500 feet wide and extending from the River to Ocean, a distance of about 2000 ft.

25 LOTS ON RIVER. 25 LOTS ON OCEAN.

You can buy from road to River; road to Ocean or from River to Ocean. You can buy 100-ft, 300-ft. or 500-ft. You can buy it for just one bid more than the other fellow will give. This is a Beautiful River Front and all somewhat improved. It is your chance to buy something for a home or speculation that is sure to double and triple in value in the next very few years. Meander down to the sales anyhow and see the "Yankee" way of doing it. Terms very easy if desired on all sales.

PANCAKE TIME

RECIPE FOR PANCAKES—One cupful flour, one cupful cold milk, one egg, one cupful melted butter, one cupful sugar, one cupful baking powder, one cupful salt, two cupsful hot water. Mix all well together and beat three minutes. Heat and fry the griddle with oil or butter and brown on both sides. They should be made small. If too thin, add a little more milk.

Whole-Wheat Griddlecakes—One cupful very soft butter, one cupful cornmeal, one half cupful milk, one egg, one cupful baking powder, one cupful sugar, one cupful salt, one cupful hot water. Mix all well together and beat three minutes. Heat and fry the griddle with oil or butter and brown on both sides. They should be made small. If too thin, add a little more milk.

White Flour Griddlecakes—Two cupfuls flour, one and one-half cupfuls milk, one tablespoonful molasses, one tablespoonful melted butter, one level teaspoonful salt, two well beaten eggs, two teaspoonfuls of baking powder. Mix the first five ingredients together until smooth, then add the eggs and baking powder. Fry on a hot griddle that has been brushed with drippings or oil. All teaspoon and tablespoon measurements are rounded unless told otherwise. One must always bear in mind that some flours take more liquid than others.

Whole-Wheat Griddlecakes—One cupful whole wheat flour, one cupful milk, one teaspoonful baking powder, one egg, one-fourth teaspoonful salt, one teaspoonful sugar. Sift the flour, salt and baking powder into the bowl, mix well with the milk and well beaten egg. Fry on a hot griddle that has been brushed with drippings or oil. All teaspoon and tablespoon measurements are rounded unless told otherwise. One must always bear in mind that some flours take more liquid than others.

Amusements

THE CHILD OF THE WILD

June Grist (June Caprice) vows a girl's oath never to attend school. But that is before Frank Trent (Frank Morgan) undertakes to teach in the wild southern mountains.

June soon finds other attractions than love of learning in attending Frank's school. Their friendship soon grows into love.

Bob Gale (Richard Neill), a rough mountaineer, grows jealous and plans revenge. June's father (Tom Brooke) dies, and Frank undertakes to father the little girl. The arrival of his sister (Florence Crawford), and her child Frank thinks, will give his little friend a foster mother.

But Gale tells June Frank's sister is the teacher's wife. June believes him, and when Frank comes to introduce his sister she drives him away.

The baby clears up the misunderstanding. June hears the child call for "Uncle Frank."

June tells Gale he lied. He attacks her just as Frank returns for the baby. Frank rescues June, and—see the finish at the Crystal theatre tomorrow.

"MADAME"

IF YOU WANT TO KNOW

the right way to cook rice and the many nutritious, easily-digested, and producing and appetizing dishes that an old Creole Madame makes. Rice as the important ingredient, you will read this and very about and try each of the recipes herein contained.

RICE.

should be served dry, steaming hot, not mushy, every grain separate. After you have learned to cook Rice, you will then be able to make and serve it in a hundred different ways. Your household will like it and will always want it on the table for dinner, served dry, to be used instead of bread, with all gravies (especially the brown meat gravies), and with beans and peas. In a large measure it will take the place of potatoes. It is so much easier to handle, cleaner, keeps better, quicker to prepare, easier to digest and about four times as nutritious.

PRACTICAL CERISE FOR COOKING RICE.

1 cup of rice (well washed), 3 cups boiling water; scant teaspoon of salt, a saltspoon of lard.

Wash rich through at least six waters or until all cloudiness is removed. Drain thoroughly. Bring to the boiling point three brimful cups of water. Add the salt, and the tiny bit of lard. When water is boiling briskly add the rice gradually so as not to stop the boiling. Don't stir. The grains should be kept moving by the boiling water. It will take about fifteen minutes for the rice to fully absorb the water. During this time keep the cover on but slightly pushed to one side. At the end of the fifteen minutes the grains should be soft, not the least gritty. Remove the cover and at the same heat let dry out for five minutes. If cooking on gas stove at the end of the five minutes lower gas and let the drying out process continue for twenty to thirty minutes longer. If cooking on a wood or coke stove, at the end of the five minutes, place cooked rice on back of stove or in oven to dry out.

BOYS MADE HAPPY BY GIFT OF BALLS

GEORGE F. JOHNSON PRESENTS
BASEBALLS TO ALL BOYS OF
DAYTONA BEACH - SEABREEZE
SCHOOL.

George F. Johnson, the well known winter resident of Peninsula drive, north Seabreeze, gave the boys of the Seabreeze - Daytona Beach public school a very unique, but appropriate and welcome surprise, Monday afternoon when he brought them each a regulation big league baseball.

Mr. Johnson is the owner of the Binghamton, N. Y., baseball team which is a member of the Tri-state league, and takes a big-hearted interest in all kinds of healthful athletics. Before coming south this winter he presented several hundred baseballs to the boys in one of the high schools near his northern home in Johnson City, a suburb of Binghamton, N. Y. As a member of the Endicott-Johnson Shoe Manufacturing company, which has its enormous factories at Johnson City and Endicott, Geo. F. Johnson is known as a benevolent man who likes to make others happy. The many shoemakers in his employ hold a very sincere regard for him because of his acts of kindness and good-will, and the fairness with which he always treats them. Mr. Johnson recently contributed \$10,000 to a church fund in his home and city and gave a like sum to a well known humane society of Binghamton for the promotion of its work.

Last Christmas, Mr. Johnson was instrumental in bringing happiness and good cheer into scores of poor homes in Binghamton and also to many of the prisoners in the jails of the city.

PROMINENT SUNDAY SCHOOL OFFICIAL IS HERE

Dr. Edgar Blake, of Chicago, Ill., corresponding secretary for the Sunday schools of the Methodist church of America for the past five years, arrived recently from his northern home and is now located at the home of Chas. H. Willson, on Seabreeze avenue.

Dr. Blake is accompanied by his wife and daughter and plans to spend the next two months in a pleasant visit to this part of the "Land of Sunshine and Flowers." They are all delighted with what they have already seen of the beach and vicinity.

ELPS BOULEVARD WORK TO BEGIN

The Seabreeze council met in regular session at the town hall on Butler boulevard Monday evening transacting much routine business of little interest.

The chief business was the letting of the bid for grubbing and grading Elps boulevard from ocean front to river to Sydney Haigh. The work will commence within the next few days. The survey for the work has been finished and it is hoped to have the new street ready for hard surfacing in a few weeks.

The opening of Elps boulevard will be paid for by the usual tax assessment of one-third to the city and one-third to the property owner on each side of the street. The Seabreeze Development which has charge of large holdings in the northern part of the town has been instrumental in getting this new street opened. Later another east and west street, Jessamine boulevard, will be opened.

Incas Were Sun Worshipers.

In religion the Incas were fond of worshipping high places, fine views, and other striking natural objects, such as irregular boulders, waterfalls and springs; the wonders of the air and the sky, such as rain, thunder, the starry firmament, the moon, and, above all, the sun.

In a cold, mountainous region like the central Andes, it was but natural that the sun, so essential to the raising of crops and the comfort of shivering humanity, should have been regarded as their chief divinity.

Of literature, as such they necessarily had none. Their language was probably the Quichua. Mr. Hardy of our expedition, who has been studying it, says that "for one who has not learned it in childhood it is difficult, because of the lack of any good grammar in either Spanish or English."—Hiram Bingham, in the National Geographic Magazine.

LARGE PARTY LEAVES ON FORUM AUTOMOBILE RIDE

About 200 people were in the large party which left for the trip.

SIXTH GRADE WINS HONOR AT THE SEABREEZE SCHOOL

The large American flag which is awarded each month to the grade in Seabreeze-Daytona Beach school which stands foremost in punctuality and attendance was won this morning by the sixth grade with a standing of 96 1/2 per cent.

Youngster Felt Lonely.

On account of the crowded condition of the street car, my small nephew and I were obliged to take seats on opposite sides of the aisle, says a writer in an exchange. His place was between two extremely well nourished women, who, when they got off the car together after riding a few blocks, left what must have seemed to my tiny relative, a great space each side of him. He aroused me from the newspaper in which I had become absorbed, and amused the passengers near us by calling to me in a lonesome tone, "Auntie, won't you please come over here and take care of me?"

Testing Criminals.

It is the endeavor of some humane societies to have a law passed to test all criminals, and that, if found of small mental age, they shall not be punished in the ordinary way. It has been suggested that the civil service use these tests instead of the oftentimes absurd examinations now used. Results from testing criminals have been startling and peculiar. In a great many cases grown men and women have not gone higher than ten or twelve years in mental age. In the case of children the tests have indicated other things besides their mental age—they have indicated the general vocation for which the child is best adapted.

Little Betty's Query.
The other day, little Betty, aged three, was sitting on the sofa and cutting pictures of birds from a paper and sticking them to the window for her amusement. She started jumping around and was heard to exclaim in her hand, "I told you the first he came out. She at once looked at me and said, 'Will you watch the sky, it's windy.'—Exchange

UNFAVORABLE REPORT UPON SILVER SPRINGS RIVER IMPROVEMENT

The following notice has been received from the United States Engineer office at Jacksonville:

"It having come to the notice of the undersigned that you have expressed an interest in the pending proposition for the improvement of Silver Springs to Ocala, Florida, you are hereby informed that the report thereon, authorized by the act of congress approved July 27, 1916, has been made and is unfavorable to the improvement. The principal grounds upon which the adverse conclusions are based are that the extension of the existing water route to Ocala without improvement of the lower Oklawaha would not add materially to the attractiveness of the present route, nor introduce effective water competition; that the reduction of rail rates is a question to be handled through established agencies if the rates are unreasonable or at the expense of the locality to be benefited if artificial reduction rates is desired; that the cost of the proposed canal would be out of proportion to its usefulness and to its value to the country at large.

You are further notified that all interested parties have the privilege of an appeal from this conclusion to the board of engineers for rivers and harbors, a permanent body sitting at Washington, D. C., to which all examination and survey reports of this character are referred. Parties desiring to do so may be heard on appeal by the board, either orally or in writing. Written communications should be addressed to the Board of Engineers for Rivers and Harbors, Southern building, Washington, D. C., and should be mailed in time to be in the possession of the said board within four weeks from the date of this communication. If, however, you have important data to communicate to the board, which can not be collected and put in shape for proper presentation within four weeks, the board should be informed of this fact without further delay and request made for an extension of the limiting date for submitting information. If oral hearings are desired, dates for the same may be arranged for by correspondence with the board.

Any further information needed may be obtained by application to this office, but attention is invited to the following regulation as to the manner in which such information may be furnished:

"Where interested parties desire data necessary for the preparation of their appeal to the Board of Engineers for Rivers and Harbors, it will be given them verbally by the district officer or, in his absence, by the senior assistant engineer connected with the improvement. They will not be permitted to have access to the report without authority from the Chief of Engineers."

You are requested to communicate the foregoing to any persons known by you to be interested in the improvement and who, not being known to this office, do not receive a copy of this communication.

Respectfully,
W. B. LAHUE,
Lt. Col., Corps of Engineers.

The Lazari Shepherd.
A century and more ago a pamphlet entitled "The Shepherd of Salisbury Plain" set forth their notorious business and sold a gentleman offered a prize of a guinea to the highest of a shrewd group. Some started up to claim the prize which was won by the shepherd who merely murmured an invitation to shake it into his pocket.—London Echo

You Yourself Will Be the Poorer.
If you fail to do the kindly or pleasant act you had thought of, the one for whom it was meant will perhaps not know what he has missed, but will nevertheless be deprived of a pleasure that might have been his, while you yourself will be the poorer for your failure to carry out the kindly impulse.—Exchange

Going Peanuts One Better.
A pocket full of peanuts will help keep the mind occupied, says a philosopher. But a pipette on the end of one's nose will do as well, if not better.

LOSE ONE DOLLAR TO WIN ONE KISS

Boston.—The Harvard Lampoon has discovered a way to cut down the high price of kissing. Smacks can be had at \$1 per, if a formula evolved at Harvard is followed. It is easier than rolling off a log, and much more pleasant, according to late reports.

Here's the scenario, clipped from the Harvard Lampoon:
"First select a girl (a pretty one), then bet her a dollar that you can kiss her without touching her. [This sounds impossible and will appeal to her sporting blood.]

"Next kiss her and pay the dollar like a good loser."
Who wins?

TRACTOR HEATS THIS HOTEL

Odd Use for the Shambling Engine of the Fields in Carlisle (Pa.) Hostelry.

Carlisle, Pa.—What is believed to be the most novel and satisfactory solution of furnace trouble is seen in the heating of the Cumberland hotel here with an outside traction engine. When the steam heating plant "went on a strike" the guests of the hotel suffered no inconvenience, according to the statement of the owner, W. B. Kline, because a steam traction engine was steered to the side of the hotel and pipes attached to the steam pipes in the building and the problem was solved.

The entire building's 30 rooms have regular heat now, and the furnace can be repaired without interruption.

Proprietor Kline says if the engine were a permanent fixture and not unsightly, outside of hiring an extra man for engineer, he'd soon have it as a furnace. He does not recommend its extended use, however, on account of the scarcity of engines in some places.

PLAN TO STOP SMUGGLING

"Honor System" to Be Given a Trial in the United States Customs Service.

San Francisco.—The "honor system" is to be given a trial in the United States customs service.

W. H. Tidwell, special agent of the treasury department, is about to appeal to department stores and milliners in an effort to discourage the illegal entry into this country of cigarettes, birds of paradise feathers and other plumage prohibited importation by federal law.

Tidwell says rare feathers are almost as plentiful as ever, despite the passage of a law several years ago excluding them from entrance. He says the law seems to have increased the demand and as a result the prohibited feathers are seen in open display in shop windows. He believes the storekeepers will co-operate in the enforcement of the law if they are properly approached. He says it is almost impossible to detect smuggling by women.

ERECT 11,000 NEW BUILDINGS

Reconstruction of Hundreds of Cities and Towns in East Prussia Progressing.

Berlin.—The reconstruction of the hundreds of cities, towns and villages in Eastern Prussia, destroyed by the Russians during their invasion, is progressing rapidly. An official report just published shows over 11,000 new buildings, about one-third of the number burned or blown up by the Russian troops, have been erected during the last 18 months. It is estimated it will take about four years more to remove all traces of the invasion.

The public subscriptions for the devastated districts so far have yielded about \$9,000,000 and the brick-yards of the kaiser at Cudinen up to January 1 last furnished building material valued at nearly \$2,000,000, but these gifts are entirely inadequate. Enormous sums must be raised by the ravaged municipalities, the provincial authorities and the Prussian state.

EX-MAYOR IS SCREEN ACTOR

Former Los Angeles Executive to Depict His Sensational Career for Movies.

Los Angeles, Cal.—Charles E. Sebastian, whose sensational career carried him, within a few years, from policeman to mayor of Los Angeles, today is not only a "soda squirt," but a motion-picture actor. Sebastian resigned from office several months ago and, after operating a rural grocery store for a while, he became manager of a "buff-feteria" in a dance hall, where he mixes soft drinks and conducts patrons to their seats. He has now contracted to act in a feature film depicting his own life.

Thieves Returned and Finished Job.

Detroit, Mich.—The other night thieves broke a window of a jewelry store and stole \$200 worth of watches. In telling a newspaper man about it, Sol Wolf, the manager, pointed out that if the thieves had broken the other window they would have got \$1,000 worth of jewelry. Evidently the thieves read the papers, for they came back the next night and remedied their error to the extent of \$1,000.

Objection to Newsboys Selling in the Casino

It has been suggested that the janitor of Casino Burgoyne be instructed to keep all newsboys out of the building, particularly during the time of concerts or other entertainments when their presence is a nuisance to those people interested in the music or other amusement. This was particularly noticeable Sunday afternoon.

UNIQUE MUSICAL AT THE PALMETTO CLUB

The Music department of the Palmetto club certainly broke its own record Monday afternoon by giving a pretty and unique affair in the club house. The audience room was well filled and responded by generous applause to a bright, attractive program.

The first numbers were two songs by Miss Bradow, of Albany, accompanied by Mrs. Frank Hillman, of Nassau, N. H.

(a) "Dance O Dance, Maiden Gay!"—F. Denante.
(b) "Out of My Soul, Great Sadness"—Robert Franz.

Following this was an exhibition dance by Miss Rundle to the music of "Beautiful Blue Danube," and "Humoresque," exquisitely played by Mrs. Stevens.

Miss Bradow again charmed the audience by singing two numbers:

(a) "The Rose Complained"—Franz.
(b) "Monotone"—Comelius.

At each appearance she responded to a generous encore.

Miss Margaret Oliver executed a fairly like dance, accompanied by Mrs. Stevens, playing Chopin's "Waltz in C Minor."

A quaint little couple were the Misses Rosalie Sholtz and Jean McCauley in an Elizabethan dance "Posse Pied," also accompanied by Mrs. Stevens in her own individual way.

The final number was a Japanese dance by Miss Delta Boice of the Clarendon, faultlessly executed.

The tables were artistically arranged and yellow jasmine were the flowers used. Presided over by Mrs. Archibald and Mrs. E. T. Conrad, a bevy of

young women served the company while they crowded the booths awaiting to hear their fortunes, past and future as they were told by Princess Futuro or predicted by Madame Irene. These booths were guarded by two orientals who lent brightness to the scene.

The wild animal has a great attraction. He did not eat us, but we all went in the cage with fear and trembling. Let us not forget the speller nor our twin auctioneers who wound up the affair amid peals of laughter.

COUNTESS OF KINGSTON

With several trunks filled with Irish shamrocks, the countess of Kingston arrived in New York recently to collect money for the Shamrock fund in aid of disabled Irish soldiers and sailors. The fund was organized by the countess, whose castle is at Carrick-on-Shannon, County Roscommon, Ireland. The shamrocks will be sold for a dollar apiece.

PROMINENT RESORT MEN GUESTS AT PRINCE GEORGE

Interesting guests at the Prince George are a supply of fresh milk and cream were as prevalent then as Ford's are have, perhaps, one of the best, if not the best, equipped bathing resorts in the world. According to Mr. Fry the privileges of the beach at Asbury Park are disposed of every three years by an auction system, being sold to the highest bidder and for nine years Mr. Mitchell and Mr. Fry have secured the privileges, their last bid being \$85,000.

The beach, which is one of the most potent assets of the fashionable resort, is at all times during the day under a surveillance of a life guard of 18 men, with a doctor and nurse George hotel are Edward Fry and E. T. is recording the water beyond the life ropes is patrolled by two of the life guard corps in life boats. During the Mitchell, of Asbury Park, N. J., who Fry have maintained the bathing resort for one bath has been drowned, though during each season hundreds are rescued. The bath houses in connection with the beach are said to be as modernly equipped and as sanitary as any in the world, while even at the height of the season the moderate price of 25 cents, including a suit, is maintained.

With Mrs. Mitchell and Mrs. Fry the two will be guests at the hotel for the next several weeks.

Cleaning Brass.

To clean brass thoroughly off all dirt with a stiff brush dipped in warm water and carbolic soap, and wipe dry. Now take equal quantities of emery powder, calcined magnesia and powdered bathbrick, mixing all together. Moisten a rag with paraffin, drag it into the powder and rub the brass until bright. Finish with a clean duster, applying a drop of methylated spirits.

Peculiar Find in Fish.

In the stomach of a tuna, caught at Seagrass, Mr. Wm. found a block of wood 20 inches long by 4 inches thick. This chunk of wood had been pressed into the stomach of the fish, and was a curiosity.

Novel Use for Sand.

In Holland sand is plentiful and is expensive, and is used instead of hay and straw as beds for cows. It keeps the animals perfectly clean, requires only a slight raking in the morning to soften and freshen it.

WILBUR BY THE SEA

WILBUR-BY-THE-SEA. March 5.—Among the recent arrivals at the Toronita hotel is Mrs. R. C. Emery, of Newton, Mass. Mrs. Emery is a gifted and talented musician and her presence greatly adds to the pleasure of the guests who listen attentively to her vocal as well as piano selections.

Mr. and Mrs. G. W. Lothrop, of Woonsocket, R. I., are pleasantly located in Professor Barker's cottage and are pleased beyond measure with Wilbur-by-the-Sea, declaring they have never met such congenial and delightful people who take pleasure in extending courtesies to newcomers. Mr. Lothrop is a wealthy property owner and is also identified in the leather belting business.

The Wilbur club house was filled Friday evening, where a pleasing event called a "horse race" was featured, under the direction of Mr. and Mrs. H. A. McLachlan, assisted by Mrs. J. H. Carr. Mrs. N. F. Emmons was awarded the blue ribbon. Postmaster F. S. Bryant was bookmaker. H. W. Eaton was starter, while Mrs. Harold Eaton and Misses Ruth Bates and Mary Fellows acted as jockeys, the judges being Mesdames Ruby Cross, F. S. Theirs and W. B. Wheeler. Dainty refreshments were served, after which those present were entertained by readings by Mrs. Harold Eaton and G. W. Lothrop.

Mrs. S. M. Waitt is a new member to the Boston contingent at the Toronita hotel. Mrs. Waitt has a pleasing personality, and is heralded as an undefeated bridge player, and is considered a valuable acquisition to the bridge club.

It was with genuine regret that the Toronita guests bade a fond farewell to Mr. and Mrs. F. V. Wyckoff, of Elmira, N. Y.

Wilbur-by-the-Sea is being visited by a goodly number of tourists en route north from Miami and Palm Beach, many of whom have previously stayed there, while others come through the recommendation of previously highly pleased guests.

Miss E. R. Whittaker, a popular society lady of Pawtucket, R. I., is being entertained at the Toronita hotel. Miss Whittaker, who spends her summer vacation at Oak Bluffs, Mass., is especially fond of the ocean, and is an expert swimmer who frequently ventures some distance beyond that of even the most daring.

Mr. and Mrs. Frank Dudley, of Dorchester, Mass., are visiting Mr. and Mrs. H. A. McLachlan, who own an attractive bungalow at Wilbur. Mr. Dudley is a retired druggist who conducted one of the most successful pharmacies in Boston, where he was considered an expert analytical chemist.

followed by the reproduction of a brisk engagement on the firing line—the work of 12-inch and 15-inch pyrotechnical shells combining the rattle of machine guns, the roar of heavy cannon and the smoke of battle.

The inaugural bouquet followed, a mammoth reproduction of flowers, the last number of the program, the firing of 750 nine and twelve inch shells which, bursting into streamers and stars, reflected all the colors of the rainbow. "Goodnight," in red, white and blue, brought the program and the festivities to a close.

President Wilson and invited guests viewed the display from the White

House. It was nearing the long program ended by one, the throng of festivities attendant upon the inauguration of Woodrow Wilson, president of the United States.

CO. COMMISSIONERS SEEK ADVICE FROM GOVERNMENT EXPERTS

The board of county commissioners has requested the Hon. L. W. Pye, director of the public roads and rural engineering, Washington, D. C., requesting that he delegate a representative of the office to be present at the next meeting of the board in order, he 13th of this month, to present the government's view as to the value and durability of two-inch asphaltic concrete blocks for street pavement, laid on a sand foundation, supported by wooden curbing.

The communication of the board of county commissioners to Mr. Pye was supplemented by the following personal letter from C. F. Burgman, chairman of the board:

Hon. L. W. Pye, Director,
Office of Public Roads and Rural Engineering,
Washington, D. C.

Dear Sir:

Supplementing attached letter beg to state that the contract alluded to involves an approximate expenditure of \$90,000.00 and is part of the road system bonded for in the Fourth Commissioners District of Volusia county, of which I am the representative commissioner in the board of commissioners. The width of this roadway as contracted for is nine feet with a 2x10 inch wooden curbing. The size of the block is 2x5x12, laid on a sand foundation.

The method of construction and durability of material has been seriously questioned by competent authority and the matter is now before the

board of county commissioners for final adjudication. We desire an expression of opinion from the highest authority on this subject, hence this appeal to you in this matter.

Yours very respectfully,

CHAS. F. BURGMAN,

Chairman Board of County Commissioners.

Hot Rocks Waste Away.

Erosion proceeds with considerable rapidity in the desert region of the southwest, notwithstanding the scarcity of continuously running water, for rock disintegration is accelerated by the great daily variations in temperature. The rocks are heated to 125 degrees in the higher on the hot sun and cool off rapidly at night. The difference in temperature is 50 degrees. In the spring or autumn the difference is less, the erosion is relatively low.

BIG SPECTACULAR DISPLAY MARKED INAUGURAL CLOSE

(Continued from Page One.)

larger private buildings also were aglow.

The white dome of the Capitol stood out boldly, a silver patch against the sky. The famous Bartholdi fountain in the Botanic garden was bathed in light and the clear-cut lines of the Peace monument seemed to have written into them the spirit of life by the long silver pencils of many searchlights.

At the Washington monument grounds, where a great crowd saw the fireworks display, the night was a riot of bursting shells and color. Peace and war scenes vied for the ascendancy in the program, the bursting shells alternating with cascades of silver fire, waterfalls in the clouds, and splendid color fantasies portraying in fire vast gardens and blossoms.

"Spiderland" was presented by the simultaneous bursting, half a mile in the air, of fifty bombs which spread silver web against the sky over which countless fiery insects crawled. Wheels of flame skidded from earth into space, breaking into clusters of many colored stars. Illuminated parachutes dropped from bursting bombs, floating gracefully into darkness and ashes. "Wilson Peace Bombs" burst into 15-inch shells, broke above the heads of the throng, showering thousands of stars which turned alternately red, white and blue.

A spectacular feature was the reproduction in flame, 1,000 feet in the air, of a huge American flag, 500 feet long. The Field of the Cloth of Gold, with forty-eight rapid-fire explosions spread a yellow mantle, 1,200 feet long over the heads of the crowd. A field of hardiment, represented by the simultaneous discharge of 2,000 rockets, shot 50,000 colored stars into the sky.

"Niagara Falls," 100 feet high, was reproduced in silver fire, followed by "Sunset in the Alps," a gorgeous color study against a background of snow-clad peaks. "The Southern Cross" in flaming glory, was projected in huge dimensions against the heavens, a pyrotechnical searchlight playing its lights upon it as it melted into darkness. Sixteen electrical fountains, spouting fire, were portrayed simultaneously, followed by a mammoth bouquet of roses, painted in changing colors.

The entire city, at one stage of the program was lighted by the bursting of hundreds of large bombs, fired a mile into the air.

One of the chief set pieces was the mammoth reproduction, in fire, of the faces of the President and Vice-President, framed in a laurel wreath and flanked on each side with columns, with "Wilson and Marshall" written in white letters at the bottom. This feature covered 3,000 square feet. It was
